ATTN: Cyril B. Korte  
President

Dear Mr. Korte,

On behalf of the Bureau of Prisons, and in particular the United States Penitentiary, Marion, Illinois, I would like to compliment you on the excellent job your company did in constructing the Water Treatment Plant. We are very pleased with the building. The materials and workmanship were of top quality and the supervision of the construction project was outstanding.

Looking back on the project, we're thankful that we had such a good working relationship with you, your employees and sub-contractors. In particular Mr. Mark Frey, did an outstanding job supervising the work and communicating with our staff and our A & E consulting firm. His leadership of your workforce and sub-contractors led to the conclusion of a very successful project. On this project our staff and A & E firm found Mr. Frey to be very knowledgeable of construction methods and having the expertise to carry out all the contract requirements. Never once did we experience any problems or changes that weren't corrected according to our desires.

I would also like to commend your office staff in complying with all the paperwork requirements of the contract. Very often 'behind the scene' staff are not acknowledged for their contributions to the project. Mr. Gregg Korte and Mr. Richard Zeidlik did an exceptional job with the products submittal and meeting all transmittal deadlines.

Thanks again for 'a job well done'! We are looking forward to working with you again in the future.

Sincerely,

  
D.H. Lange  
Contracting Officer
